

9V DC PHOTOELECTRIC SMOKE ALARM With 5 Years Longlife battery (Seal-in)

Model : GNS-366S/5YX

GNS-366S/5YX

Main Features

- Certified to EN14604
- Compact size & elegant design
- 5 Years 9V Alkaline PP3 battery included (Seal-in)
- Loud 85 dB alarm signal in 3 metre
- High performance photoelectric smoke chamber with insect screen
- Fast response, ideal for slow smouldering fires
- Alarm / Power Indicator
- HUSH Feature allow the user to quickly silence nuisance alarms
- Low battery warning remind the user to replace the entire unit when battery end of life.
- Cannot be installed with battery missing
- Supplied with fixing kits

Description

The Garvan GNS-366S/5YX Smoke Alarm is a photoelectric 9V DC smoke alarm with 5 YEARS LONG LIFE BATTERY. It is operated by 1 piece 9V Alkaline PP3 battery (seal-in) battery life 5 years minimum. GNS-366S/5YX has an 85 decibel horn, test button, alarm LED indicator.

With the photoelectric technology, GNS-366S/5YX is more sensitive to detecting slow smouldering fires which general thick, black smoke, little heat and may smoulder for hours before bursting into flames. GNS-366S/5YX do not contain the radioactive material which is harmless to the environment.

GNS-366S/5YX is a single station photoelectric alarm and should NOT be connected to other smoke alarms. It should be installed in every room (except the bathroom), and every other area of the home, making sure the people in the home will be able to hear and respond to the alarm sound. For minimum protection you should fit an alarm in the hallway between the living areas (incl. Kitchens) and sleeping areas. Place it as near to the living areas as possible and ensure the alarm is audible when the bedrooms are occupied.

Operation

Once the smoke alarm has been installed a small indicator light (LED), should flash approximately once a minute in normal operation. If smoke is detected the unit will emit a loud pulsating alarm until the air is clear.

PRODUCT SPECIFICATIONS:

| | |
|-----------------------|--|
| Description | 9V Battery Powered Photoelectric Smoke Alarm, with 5 YEARS long life battery & Hush |
| Model number | GNS-366S/5YX |
| Power Source | 9V Five Year PP3 battery (Seal-in) |
| Operation Current | <10 uA (normal) and <20 mA (alarm working)) |
| Sensitivity to smoke | comply to EN 14604 : 2005 |
| Operating Temperature | 0°C - 40°C |
| Ambient Humidity | 10% - 90% |
| Plastic Material | ABS |
| Overall Dimensions | 46 mm (H) X 106 mm (Diameter) |
| Colour | Bright White |
| Alarm Sound Level | 85 Decibels at 3 metres minimum |
| Smoke Alarm Assembly | Smoke Alarm Mounting bracket 1 pieces 9V PP3 alkaline battery |
| Fixing kit assembly | 2 fixing screws 2 rawlplugs in polythene bag |
| Packing | Blister Contents: Smoke detector assembly Instruction leaflet Fixing kit assembly |
| Warranty | 5 years warranty |
| Approvals | EN 14604, CPD, WEEE, ROHS & REACH Compliant |

Benefits of product

- Warranted 5 years long-life battery. Provide up to five years of continuous protection. Eliminate the need and expense of annual battery replacement. Save cost for calling in technician. Just pay a LITTLE more but can save more money, whatever the battery and installation cost for replacing battery.
- Battery sealed-in. No battery removal or theft problems -
- Low battery warning remind the user to replace the entire unit when the batteries end of life.
- Reduce the risk of smoke detectors installed in home are not operating because of dead or missing batteries.
- Environmental concern ñ only one battery for five years

Packaging

Blister (Single)
