### PIG Absorb-&-Lock Water Absorbent Strips

Low-profile absorbents swell up to pull in high volumes of water.

Absorbed water is "locked" inside; it won't run out when you pick up or dispose, even when fully saturated. Super Absorbent Polymer (SAP) filler swells on contact and expands to pull in large volumes of water quickly, so they're great for sewage and restroom backups and overflows.

Strips (before water contact) are low-profile to fit tight spaces but once they expand, they create a barrier to help prevent leaks from escaping and spreading.

**Note:** Printed with "Caution" safety messaging - available in English only.

Strips swell on contact with water to keep absorbing more.

#### PIG® Absorb-&-Lock™ Water Absorbent Strips

### PIG Absorb-&-Lock Water Absorbent Pads with Waterproof Backing

An extra layer of protection.

These water-absorbing pads feature a waterproof backing for added protection to help keep floors dry and safe. On contact with water, they quickly swell and absorb large volumes of liquid, locking it inside to prevent leaks or spills from spreading, even when fully saturated.

Ideal for sewage backups, lavatory overflows, or leaks around equipment.

When expanded, pads create a barrier to stop liquid from spreading into walkways or under doors. Their low-profile design fits tight spaces and reduces trip hazards. Safe, non-toxic and easy to dispose of after use, they provide a reliable solution for water clean-up.

**Note:** Printed with "Caution" safety messaging - available in English only.

Pads swell on contact with water to keep absorbing more.

#### PIG® Absorb-&-Lock™ Water Absorbent Pads with Waterproof Backing

### PIG Absorb-&-Lock Water Absorbent Pads

Deploy hi-vis pads to absorb high volume leaks and drips.

These water-absorbing pads trap liquid inside, preventing leaks from spreading, even when fully saturated. Ideal for handling sewage and lavatory backups, overflows, or leaks around equipment, appliances, and machinery.

Their low-profile design fits easily into tight spaces and avoids creating trip hazards, and when expanded, pads form a barrier to stop liquids from spreading.

Non-toxic construction makes these pads a safe and efficient option for leak management. Once fully saturated, simply dispose of the pad.

**Note:** Printed with "Caution" safety messaging - available in English only.

Pads swell on contact with water to keep absorbing more.

### PIG Absorb-&-Lock XL High-Visibility Absorbent Pads

Extra-large, high-visibility pads absorb large leaks and spills quickly.

Extra-large, high-visibility water-absorbing pads effectively clean up high-volume leaks and spills — fast. Perfect for problem areas around pipes, equipment, and machinery, these pads are ideal for handling restroom backups, overflows, and pipe bursts.

The extra-large pads cover a wide surface area, perfect for high-traffic environments like hospitals or retail spaces. The pads swell on contact, locking in large volumes of liquid without leaking.

Their low-profile design fits into tight spaces without creating trip hazards, and they are non-toxic for safe and easy disposal.

**Note:** Printed with "Caution" safety messaging - available in English only.

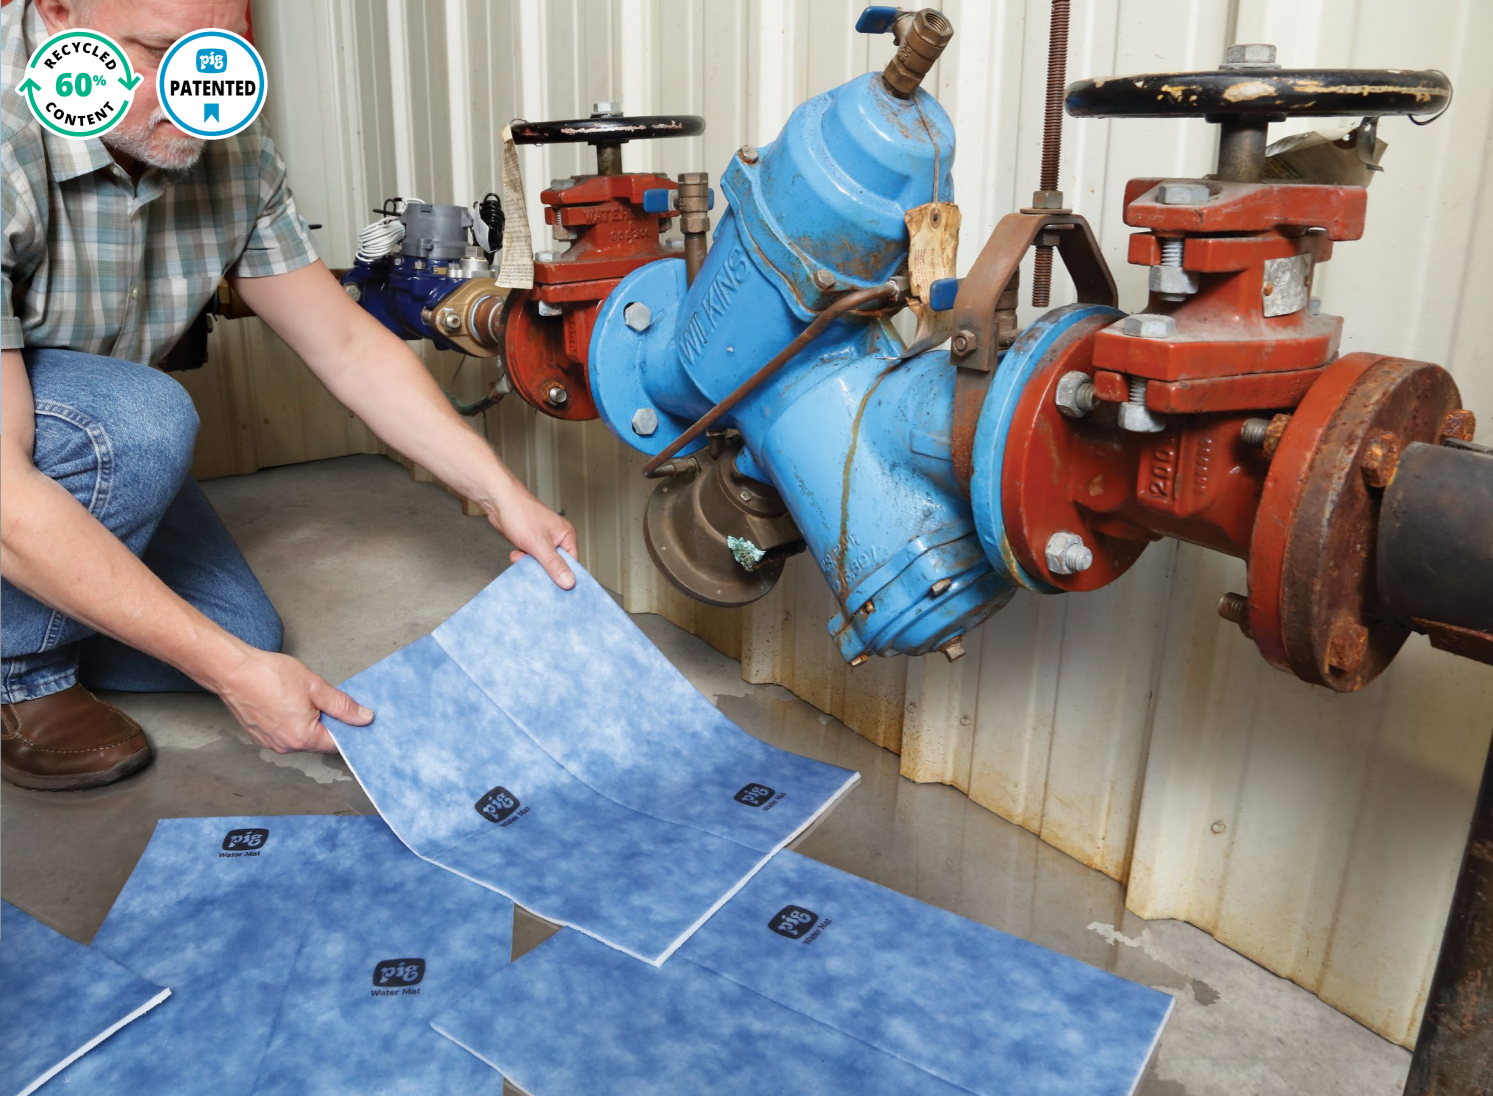

Pads swell on contact with water to keep absorbing more.

### PIG Water Absorbent Mats

The ONE mat to stock for water clean-up.

Designed and engineered to pull in large volumes of water on contact; superfast wicking helps you quickly eliminate puddles to prevent damages and falls. Tough, spunbond top layer holds mat together when it's fully saturated.

Contains **60% pre-consumer recycled cellulose**

NOTE: Not recommended for acids, caustics or other aggressive liquids. Patent 8,182,927

### PIG Water-Absorbing Spill Kits

Clean up flood water and heavy rain with ease.

Help protect your assets and inventory from costly water damage; keep floors dry and safe to eliminate slips and falls. Kits are packed with the best absorbents for soaking up water. Wring and re-use PIG Water Absorbent Mat Pads during a single water spill clean-up, then dispose.

Compact kit with zipper closure (KIT914) takes up little storage space and transparent bag lets you check supply levels at a glance while keeping contents clean and dry.

Kits contain **recycled content**; PIG Water Absorbent Mat Pads (WTR006) contain up to **60% pre-consumer recycled cellulose**; KIT917 also includes PIG Absorbent Pillows (PIL201, PIL204) that contain a mixture of **85% pre- and post-consumer recycled cellulose filler**.

Spill Kits

For Water Applications

## PIG High Volume Water-Absorbing Spill Kit in Large Spill Cart

Store this Water Spill Kit near plumbing and mechanical rooms to control leaks, failures and backups. Includes PIG Water Absorbents, Patching Tape, Flood Barriers and more to handle any mess. Cleaner, more efficient method than dirty mops, rags and towels, which can recontaminate floors by spreading bacteria, mould and odours.

Front access doors and flip-top lid provide easy access to all kit contents for faster response than container-style kits. Hi-vis mobile cart features large 20cm wheels in back and 3.8cm swivel wheels in front for easy manoeuvring. Narrow enough to fit through most aisles and doorways.

Kit and refill include **PIG Water Absorbent Mat Pads** containing **60% pre-consumer recycled content**, **PIG Universal Absorbent Pillows (PIL201)** containing an **85% mixture of pre- and post-consumer recycled cellulose** filler, and **Polyethylene Disposal Bags** containing **30% recycled polymer**.

### PIG® High Volume Water-Absorbing Spill Kit in Large Spill Cart

SIZE	ABSORBS UP TO	ITEM #
41cm W x 57cm L x 56cm H	302,8L	WTR550
Refill	302,8L	RFL550

**WTR550 & RFL550 Contents:** 72 Mats, 12 Socks, 9 Pillows, 2 Flood Barriers, 2 Wipes, 1 Patch & Seal Tape, Polyethylene Disposal Bags

Corrosive Liquids Notice: Not recommended for acids, caustics, or other corrosive liquids.

## Spill Kit in High-Visibility Economy Bag

Respond to spills with the essentials you need in one re-closable bag.

Our most economical kit includes only the essential items needed for spill response, saving you money. Bag's bright colour stands out so you can easily find it when you need it most. Compact size fits in vehicles, workstations and other areas where space is limited.

**Universal Kit (KIT2100)** includes PIG Mat Pads containing **25% recycled content**.

**Oil-Only Kit (KIT4100)** includes PIG Oil-Only Absorbent Socks containing a **95% mixture of pre- and post-consumer recycled cellulose**.

### PIG® Spill Kit in High-Visibility Economy Bag

Universal (For oils, coolants, solvents & water)

SIZE	ABSORBS UP TO	ITEM #
11cm W x 50cm L x 39cm H	15,5 L	KIT2100

Contents: 2 Socks • 12 Mat Pads • 2 Clear Disposal Bags

### Oil-Only (For fuel & oil-based liquids, but not water)

SIZE	ABSORBS UP TO	ITEM #
13cm W x 50cm L x 39cm H	17,4 L	KIT4100

Contents: 2 Socks • 12 Mat Pads • 2 Clear Disposal Bags

UNIVERSAL KIT ABSORBS UP TO 15.5 L

OIL-ONLY KIT ABSORBS UP TO 17.4 L

## PIG Water-Filled Flood Barriers

Protect property from water damage with this reusable water-filled flood barrier.

Easy to use; just add water. Re-usable, compact and lightweight for storage; store empty. Dual-chamber design helps to keep barrier in place.

They are ideal for flood prevention around doorways or garages, for storm and emergency preparedness, and for erosion control during construction.

Barriers are only for temporary use.

## FloodFence Units

Diversionary system protects your property from floodwater.

PLSE316

PLSE318

Lightweight, re-usable system can be easily connected and deployed rapidly by one person, making it ideal to protect against flash flooding; does not require any pre-applied ballast. System self-balances, with each unit incorporating a slimline base gasket to allow an effective seal to hard-standing ground terrain.

Ideal for controlling and deflecting flowing water, responding to flash floods from heavy rain, drain or river overflow, or for burst water mains; can also be used for fire water runoff control.

When connected to other units, the effective linear length of each is 0.91m, and can be used for water flows up to 40cm deep.

PLSE317

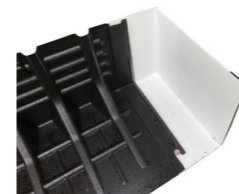

### FloodFence Unit

Protects your property against flash flooding without any pre-applied ballast.

### Corner Unit

Allows inner or outer corners to be deployed in conjunction with standard FloodFence Units.

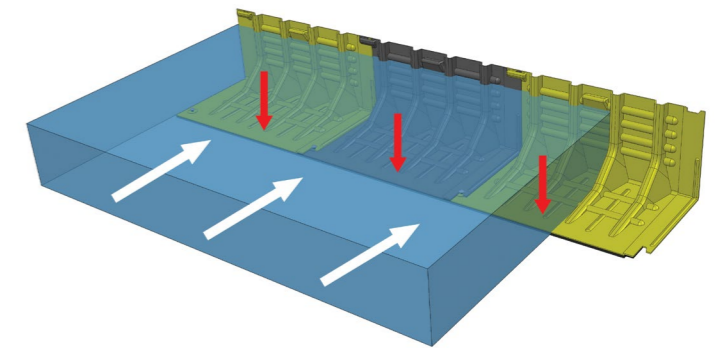

### Wall Connector

Allows your FloodFence barrier to connect to and seal against vertical surfaces.

### Outer Corner Locking Pin

Connects two Corner Units together to create an "outer" corner.

Water flow forces units down against the ground, allowing them to self-balance.

Hard-wearing gaskets create a seal with ground terrain.

**IN STOCK.** Order now for immediate delivery.

### PIG DoorBlocker Dike

Unique 45° angle design diverts spills from doorways.

Fits any doorway up to 122cm wide. Flexible, 100% polyurethane is non-absorbent, chemical resistant and re-usable; cleans easily. Ideal as a barrier during washdown operations, as a dam to control or contain liquids or as a diverter to direct liquids away from equipment or supplies.

PIG® DoorBlocker Dike		PIG
SIZE	ITEM#	
5cm W x 122cm L x 3.8cm H	PLR213	

NOTE: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical life expectancy is 5 years. Please inspect the stored product regularly to ensure it is in a usable state. For optimum performance, ensure that the area where the product will be deployed is free of debris, cracks and holes. For more details and for chemical compatibility, please call Technical Services.

### PIG SpillBlocker Vacuum Dike

Attach this Dike to a wet vacuum to capture liquids.

Attaches to a wet vacuum (not included) to create a barrier that contains liquids and speeds up recovery. Ideal for spill response or routine washdowns. PVC outlet pipe attaches to most wet vacuum hoses; includes couplers to attach dike to 6cm and 4cm hoses.

PIG® SpillBlocker® Vacuum Dike		PIG
SIZE	ITEM#	
10cm W x 152cm L x 6cm H	PLR280	

NOTE: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical life expectancy is 5 years. Please inspect the stored product regularly to ensure it is in a usable state. For optimum performance, ensure that the area where the product will be deployed is free of debris, cracks and holes. For more details and for chemical compatibility, please call Technical Services.

Four intake channels suck up liquid.

Attaches to PIG Original SpillBlocker Dike (PLR204).

### PIG Silicone Water Barrier

Affordably block and divert small volumes of water.

Low-profile water barrier has an adhesive bottom that adheres to smooth surfaces. Install it once, away from traffic zones, and leave it down for long-term protection. Flexible silicone can form tight curves and small diameter circles to surround almost anything — water heaters, air compressors, HVAC, boilers and more.

Specify Colour: <input type="checkbox"/> White <input checked="" type="checkbox"/> Yellow	ITEM#	
SIZE	ITEM#	
1.4cm W x 3m L x 3cm H	WTR040	

### PIG WashBlocker Strip

Block washdown liquids from entering neighbouring areas.

Low-profile strip helps you control liquids during routine washdowns and sanitising operations; blocks doorways, protects carpeting and channels liquids to drains. Tear-resistant polypropylene top stands up to repeated use; tacky urethane bottom seals to dry floors.

PIG® WashBlocker® Strip		PIG
SIZE	ITEM#

Patent Pending - Patent 5, 236, 281

## PIG Mediumweight Oil-Only Absorbent Mats

### Versatile for general, everyday tasks.

Our most cost-effective mat when you only need to absorb oil-based liquids. Exclusive dimple pattern speeds wicking of oily liquids through mat for faster clean-up.

NEW MAT454, with a 20% smaller pack size, and the NEW MAT446, featuring a 25% shorter roll length, offers businesses a space-efficient, cost-effective solution that reduces waste while providing the same reliable performance for facilities with lighter usage or limited storage capacity.

MAT454
