PRESS RELEASE – NEW PRODUCTS – TRELLECHEM® SPLASH 1000

Headline:

ANTISTATIC CHEMICAL PROTECTIVE SUIT BY TRELLEBORG PROTECTIVE PRODUCTS

Text:

The *TRELLECHEM® SPLASH 1000* suit is in world-wide daily use by leading fire and rescue services. Splash 1000 offers advanced head-to-toe protection against aggressive liquid chemicals. The suit is dressed within just a few seconds at the scene of accident and it fits directly over the firemen's protective clothing and SCBA.

The *TRELLECHEM® SPLASH 1000* suit is now also tested and CE certified to the European standards EN 14605 and the suit passed the stringent Type 3 i.e. liquid jet splash test. It has, additionally to above, also been tested to the European standard EN 1146-5 for *electrostatic properties* and Splash 1000 meets the requirements set forth in this standard. The suit has been upgraded on several areas to obtain improved sealing/protection factor. It comes with nitrile/chloroprene 5-finger rubber gloves attached to the suit by means of the Trellechem® bayonet ring system.
